PRODOTTI

Made in Italy

Tutti i componenti utilizzati nei nostri articoli sono prodotti e lavorati in Italia.

Certificazioni & garanzia

I nostri prodotti, conformi alle vigenti normative CE, sono garantite 1000 ore in nebbia salina. La garanzia anticorrosione si riferisce ai prodotti in alluminio, altri materiali hanno resistenze diverse.

GARANZIA: 24 MESI. Per eventuale esposizione delle lampade in zone marine, contattare il nostro staff.

Qualità

La nostra filosofia aziendale è volta a produrre internamente ogni apparecchio, al fine di mantenere un controllo diretto sugli standard qualitativi, nonché conseguire un ottimo rapporto qualità-prezzo.

Lavorazioni speciali & personalizzazioni

La flessibilità e la versatilità che contraddistinguono la nostra azienda ci permettono di rispondere ad ogni esigenza della clientela, realizzando anche articoli "su richiesta".

SERVIZI

Customer care

Il nostro obbiettivo è la costante soddisfazione della nostra clientela, sia nei prodotti che nei servizi prestati.

Tempi di consegna

Le ordinazioni sono evase in tempi brevi, sempre con particolare attenzione alle esigenze dei nostri clienti. Tempi di consegna medi: 10-20 giorni lavorativi.

One to one

Il contatto diretto con il cliente ci permette di garantire l' adempimento degli impegni assunti e la continuità dei rapporti, nono solo commerciali, ma anche personali.

Consulenza illuminotecnica

Grazie alla nostra trentennale esperienza nel settore dell' illuminazione, siamo in grado di consigliare ai nostri clienti la soluzione luminosa più adatta, aiutandoli a risolvere particolari problematiche o esigenze relative ai singoli progetti.

PRODUCTS

Made in Italy

All the components used in our items are made entirely in Italy.

Certifications and warranty

Our products, conform to actual CE rules, have a 1000 salt mist hours guarantee. Anti-corrosion warranty refers to aluminium components, other materials have different resistances.

GUARANTEE: 24 MONTHS.

Quality

Our company philosophy is direct to the internal production, in order to keep the complete control on qualitative standards and obtain the best quality-price ratio.

Special workings and personalization

Our flexibility and versatility enable us to reply to every customers' need, carrying out articles "on request".

SERVICES

Customer care

Keep a high level of customer satisfaction is the constant aim of our company.

Delivery time

We guarantee swift dispatch of orders and attention to the customers' demands. Delivery time: about 10-20 work days.

One to one

The direct contact with our customers is guarantee of honour of commitments and continuity of relationships, both commercial and personal.

Light consultancy

Thanks to our 30-year experience, we can advise our customers the planning of lighting solutions, helping in the consideration of particular problems or requirements of the project.

ENJOY YOUR LIGHT!

in case of requests of articles in different colors, please consider price supplement and conditions on price list.

ZOOM COLOR

Alluminio:	Profilato, lastra e lega UNI 5076 realizzata con la tecnica della pressofusione. Processo di verniciatura caratterizzato dalle seguenti fasi: 1 FOSFOGRASSAGGIO E RISCIAQUO: trattamento di sgrassaggio e successivo doppio lavaggio. 2 FLUOZIRCONATURA: trattamento protettivo anticorrosione, caratterizzato da molti benefici, quali la totale assenza di cromo e la riduzione delle emissioni nocive nell' ambiente di gas e fanghi. 3 RISCIAQUO E ASCIUGATURA 4 VERNICIATURA: applicazione delle polveri (poliesteri) sui manufatti mediante elettrodeposizione in cabina automatizzata. 5 POLIMERIZZAZIONE (COTTURA): cottura in forno ad aria calda ad un temperatura di 170-200°C. 6 SCARICO E CONTROLLO 7 EVENTUALE SFUMATURA: su richiesta del cliente, applicazione con pennello di vernice colorata sui manufatti (la sfumatura ha un durata indicativa di 3-4 anni) Garanzia: i componenti in alluminio sono garantiti 1000 ORE IN NEBBIA SALINA . La garanzia non copre eventuali danni causati da cattiva manutenzione o dall' esposizione a sostanze chimiche (fertilizzanti, ecc.), e impianti di irrigazione. GARANZIA: 24 MESI. Per eventuale esposizione delle lampade in zone marine, contattare il nostro staff.
Vetro:	Vetro piano tagliato artigianalmente con spessore 3-4 mm.
Policarbonato:	Materiale altamente resistente agli urti e agli agenti atmosferici.
Acrilico:	Materiale dotato di un' ottima resistenza all' invecchiamento, alla luce e agli agenti atmosferici.
Minuteria:	Tutta la minuteria esterna è in ottone o in acciaio inox. Sono compresi in dotazione le viti e i tasselli di ancoraggio per il fissaggio di lanterne e pali. I triangoli di ancoraggio non sono inclusi.
CE:	CE: Il marchio CE applicato su ogni articolo testimonia la conformità del prodotto alle Direttive Europee.
Manutenzione:	Manutenzione: E' consigliata la pulizia periodica dell'apparecchio, mediante l'utilizzo di un panno e detergente neutro.
Made in Italy:	Tutti i componenti utilizzati nei nostri articoli sono prodotti e lavorati in Italia.

Aluminium:	<i>Extruded, plate and die-cast aluminium (alloy UNI 5076)</i> Coating process <i>1 WASHING AND RINSING: washing treatment and double rinsing phase</i> <i>2 ZIRCON-FLUOR TREATMENT: protective anticorrosion zircon-fluor treatment, ensuring the total respect of environment (chrome absence, reduction in gas and industrial mud emission)</i> <i>3 RINSING AND DRYING</i> <i>4 COATING: coating with electrostatically applied powder in automatic cabin.</i> <i>5 POLYMERIZATION: polymerization in oven at 170-200°C temperature.</i> <i>6 UNLOADING AND CHECKING</i> <i>7 SHADING: on customers' request, application of coloured paint with brush on items (shading can last approximately 3-4 years).</i> Guarantee: aluminium items has a 1000 SALT MIST HOURS guarantee. <i>The guarantee doesn' t cover any damage caused by uncorrect maintenance or exposure to chemical substances (fertilizer, etc.).</i> GUARANTEE: 24 MONTHS.
Glass:	<i>Shock-proof and UV resistant nylon/glass fiber.</i>
Polycarbonate:	<i>Sheet of glass 3-4 mm. thick.</i>
Acrylic:	<i>Vandal proof polycarbonate diffuser UV resistant.</i>
Nuts and bolts:	<i>Shock-proof polymethyl methacrylate UV resistant.</i>
CE:	<i>All external nuts and bolts are in brass or stainless steel.Wall lamps and poles are equipped with anchorage screws. Anchorage triangular plates are not included.</i>
Maintenance:	<i>The CE marking applied on each article testifies the conformity to the European Derives.</i> <i>The periodic cleaning of fixtures is advised,making use of cloth and neutral detergent.</i>
Made in Italy:	All the components used in our items are produced and worked in Italy.

	Certifica che il prodotto risponde ai requisiti di sicurezza e che può liberamente circolare all'interno della Comunità Europea. Ce confirms the products meet the safety requirements and can be market in the EEC.	 	Protetto contro la penetrazione di corpi solidi di dimensioni superiori a Ø 1 mm. Protetto contro le cadute d'acqua con inclinazione massima di 15°. Protected against the penetration by solid bodies with dimensions greater than Ø 1 mm. Protected against transverse rain up to a maximum of 15°.
	Simbolo di terra che appare sugli apparecchi di classe prima per indicare che dispongono solo dell'isolamento funzionale. Deve quindi essere inserito l'apposito morsetto per il collegamento a terra. Mark of earth contact - Class 1 - Earth tag is provided and must be connected.	 	Protetto contro la penetrazione di corpi solidi di dimensioni superiori a Ø 1 mm. Protetto contro la pioggia. Protected against the penetration by solid bodies with dimensions greater than Ø 1 mm. Protected against rain.
	Simbolo di classe seconda (doppio isolamento). Indica che l'apparecchio è doppiamente protetto contro il contatto accidentale con parti in tensione da parte dell'utilizzatore finale. Esclude la messa a terra. Double insulation - Class 2 - This product is double insulated and does not require additional earth contact.	 	Protetto contro la penetrazione di corpi solidi di dimensioni superiori a Ø 1 mm. Protetto contro gli spruzzi. Protected against the penetration by solid bodies with dimensions greater than Ø 1 mm. Protected against sprays of water.
	Classe III - Apparecchio predisposto per il collegamento ad impianti a basso voltaggio. Apparecchio (alimentazione a bassissima tensione di sicurezza SELV) in cui non si producono tensioni superiori alla stessa. Fixture can be connected to low-voltage systems.	 	Protezione contro la penetrazione della polvere. Protezione contro i getti d'acqua. Dust proof. Water jets proof.
	Simbolo utilizzato per gli apparecchi idonei all'installazione su superfici infiammabili (base d' appoggio con temperatura max 90° C.) Fixture ready for mounting on flammable surface (surface temperature not exceeding 90° C.)	 	Protetto completamente contro la penetrazione della polvere. Protetto contro i getti d'acqua. Completely dustproof. Protected against jets of water.
	Apparecchio per servizio gravoso. Light fixture for heavy-duty use.	 	Protetto completamente contro la penetrazione della polvere. Protetto contro i getti d'acqua potenti. Completely dustproof. Protected against high-pressure water jets.
Classificazione di protezione internazionale - International protection classification		 	Protetto completamente contro la penetrazione della polvere. Protetto all'immersione temporanea. Completely dustproof. Protected from temporary immersion.
 (INTERNATIONAL PROTECTIONS) Grado di protezione offerto dall'apparecchio all'ingresso di solidi e liquidi Protection rating guaranteed by the fixture against the penetration of solids or liquids.		 	Protetto completamente contro la penetrazione della polvere. Apparecchi stagni alla sommersione. (con indicazione in metri della profondità consentita) Completely dustproof. Waterproof light fixtures for underwater lighting. (allowable depths given in meters)
La prima cifra identifica il grado di protezione contro l'ingresso di corpi solidi. The first digit is the protection rating against the penetration of solid bodies. La seconda cifra identifica il grado di protezione contro l'ingresso di liquidi. The second digit is the protection rating against the penetration of liquids.			
	Protetto contro la penetrazione di corpi solidi di dimensioni superiori a Ø 12 mm. In assenza di protezione contro la penetrazione dei liquidi. Protected against the penetration by solid bodies with dimensions greater than Ø 12 mm. It is not protected against liquid penetration.		
 	Protetto contro la penetrazione di corpi solidi di dimensioni superiori a Ø 12 mm. Protetto contro la pioggia. Protected against the penetration by solid bodies with dimensions greater than Ø 12 mm. Protected against rain.		Simbolo che indica la protezione dell'apparecchio contro la pioggia. Rain proof fixture.
 	Protetto contro la penetrazione di corpi solidi di dimensioni superiori a Ø 1 mm. In assenza di protezione contro la penetrazione dei liquidi. Protected against the penetration by solid bodies with dimensions greater than Ø 1 mm. Is not protected against liquid penetration.		Simbolo che indica la protezione dell'apparecchio contro gli spruzzi d' acqua. Splash proof fixture.
			Simbolo che indica la protezione dell'apparecchio contro i getti d' acqua. Water jet proof.
			Simbolo che indica la protezione dell'apparecchio contro la polvere. Dust proof.
